Motor Components

LLC

Over 100 years of manufacturing experience, Motor Components, LLC an ISO 9001-2008 facility is the industry leader in producing low-pressure electronic fuel pumps for the Automotive and Off-Road markets. Located in Elmira, NY in a 300,000sq. ft. facility, we continuously strive to produce the highest quality product for our OE and Aftermarket customers. All Facet / Purolator low-pressure electronic fuel pumps are designed, engineered and manufactured in the USA and supplied worldwide through our significant distribution network. Our electronic gasoline and diesel fuel pumps are installed on many of today's most sophisticated equipment in industries such as ag, construction, gen-sets, marine, military, power sport, refrigeration and high tech diesel engines. Motor Components encourages OE customers to challenge our design engineers to make their projects our solutions.

Motor Components, LLC also offers a large range of automotive aftermarket in-tank fuel pumps and modules. Our automotive product meets or exceeds OE specifications for exact fit and proper installation. All fuel pumps and modules are supplied with an installation kit and strainer for fast and easy installs.

Notice: This catalog may not include all applications for Facet/Purolator® fuel pumps. Refer to pump specifications of engine manufacturer for additional applications. Facet/Purolator® fuel pumps may require other components for proper final installation in addition to those supplied. Some applications of Facet/Purolator® fuel pumps (including those described in this catalog) require the use of a fuel regulator. The use of a fuel filter (sold separately) is recommended for all Facet/Purolator® fuel pump applications.

All information in this catalog is based on data available at the time of publication. Motor Components, LLC. is not responsible for any errors resulting from data supplied by others and assumes no obligation to update the information contained in this catalog.

For more information about Facet/Purolator® fuel pumps, visit www.facet-purolator.com.

Markets Served

Construction and Utility

In tough, off-road conditions where dependability and performance counts, Facet/Purolator fuel pumps deliver. With thousands of proven applications credited to our product engineering and materials integrity, Facet/Purolator is the OEM supplier of choice. Our fuel pumps provide a wide range of lift and self priming capabilities along with a variety of options such as internal check valves and positive shutoff valves.

Automotive Aftermarket

Around the world, on US, European or Asian vehicles, Facet/Purolator fuel pumps are relied upon to deliver the dependability and performance that meets and often exceeds original equipment specifications. For low pressure fuel pumps to fuel injection pumps and modules, Facet/Purolator fuel pumps are the preferred choice for all 4, 6 and 8 cylinder applications.

C

Major agricultural OEM's rely on Facet/Purolator fuel pumps to deliver long-lasting and powerful lift capabilities. Tractors, skid-steers and other implements carrying the brand names John Deere and Case New Holland are specifically designed with Facet/Purolator fuel pumps. To keep busy farms working around the clock, today's farmers demand and expect the same engineered quality in replacement fuel pumps. That's why distributors, retail automotive part stores and farm equipment service and repair facilities specify Facet/Purolator fuel pumps as their aftermarket source for fuel pumps.

Gasoline and Diesel Engines

Facet/Purolator is the specified choice for self-priming high-lift fuel pumps by both domestic and foreign manufacturers who engineer diesel and gasoline engines into their finished products. Featuring advanced solid state design with a fully insulated and sealed electronic system, these Facet/Purolator pumps deliver up to 120 inches of dry fuel lift and a full range from 1.5 psi to 100 psi.

Generators and Refrigeration

Whether your RV, marine, industrial, military, mobile standby or APU generator requires gasoline, diesel, biodiesel or even vegetable oil, Facet/Purolator has the fuel pump to deliver the critical flow rate required for peak performance operation. That's why so many major OE generator manufacturers like Kohler Power Systems, Generac, Carrier Transicold, Phasor, Cummins, Westerbeke, Thermo King and Fisher Panda turn to Facet/Purolator. They know that we can meet their exacting engineering specifications.

Marine

As on land, Facet/Purolator fuel pumps deliver performance and dependability on the water. Industry leading brand names such as Mercury Marine, Textron Marine and Indmar Marine Engines depend on Facet/Purolator quality to meet their design performance criteria. With a fuel pump for most applications from high-pressure in-line fuel pumps for speed boats to marine pleasure craft fuel gen sets, Facet/Purolator products are on board. Facet/Purolator fuel pumps meet Coast Guard Ignition Protection Test Requirements 33CFR183.410 and Fire and Thermo Shock Test Requirements 33CFR183.590

Military

For use on tanks, heavy-duty trucks, generators and heaters... Facet/Purolator fuel pumps are designed and built to meet strict U.S. military EMI standards. For reliability and performance, leading defense contractors such as BAE Systems, United Defense Industries and Textron Marine regularly specify Facet/Purolator fuel pumps for use on their equipment.

Fuel Pump

Troubleshooting Guide for Gasoline and Diesel Engines

3 Motor Components

PROBLEM	CAUSE	SOLUTION
INSUFFICIENT FUEL DELIVERY	<ul style="list-style-type: none"> • Pump's pump filter screen or sock filter in fuel tank is clogged • Break or restriction in fuel line (a pinch or kink) • Incorrect float level, malfunctioning inlet needle or clogged inlet screen in carburetor • Return line • Vapor trapped in fuel • Loose fitting or air leak on inlet side of fuel pump or broken fuel line • Wrong pump for application • Plugged gas vent in gas cap or tank vent • Low gas level in gas tank 	<ul style="list-style-type: none"> • Clean or replace filter • Repair fuel lines and remove all restrictions in the line • Replace or repair as needed • Repair fuel lines and remove all restrictions • See vapor lock remedy • Tighten and clean all connections. Check fuel line, replace bad line • May need larger output pump • Clean vent in gas cap or tank vent • Add gas to tank
PUMP NOT OPERATING	<ul style="list-style-type: none"> • Damaged or improper wiring • Loss of ground 	<ul style="list-style-type: none"> • Inspect mounting and all wiring as out lined on instruction sheet • Clean frame or metal surface to which pump is mounted. Tighten mounting bolts
CARBURETOR FLOODING	<ul style="list-style-type: none"> • Blown fuse • Worn needle and seat assembly in carburetor • Too much pressure due to wrong fuel pump model <ol style="list-style-type: none"> 1) Standard pressure carburetor 2) Low pressure carburetor 	<ul style="list-style-type: none"> • Replace fuse • Replace worn needle and seat assembly in carburetor • Check with auto dealer on pressure that carburetor will hold
FUEL PUMP LEAKS	<ul style="list-style-type: none"> • Fuel line fitting loose in pump. • Fuel line to fitting loose 	<ul style="list-style-type: none"> • Tighten and clean all connections at pump and all other connections, which were opened during pump installation.
PUMP HAS LOUD, FAST POUNDING NOISE...DOES NOT SHUT OFF	<ul style="list-style-type: none"> • Pump is pumping air due to air leak on inlet side of pump <ol style="list-style-type: none"> 1) Broken fuel line 2) Loose fitting on inlet side 3) Low pressure carburetor • Pump sees vapor 	<ul style="list-style-type: none"> • Check all connections and tighten all fuel lines between tank and pump. Check for holes or cracks between pump and brackets... use rubber mounts to lessen noise on framework • See vapor lock remedy
VAPOR LOCK	<ul style="list-style-type: none"> • Pump mounted in high heat area • Plugged or partly plugged inlet fuel line causing fuel to be placed under high vacuum • Pump location and fuel line routing • Plugged gas tank vent or gas cap vent • Poor fuel • Try different type of gasoline 	<ul style="list-style-type: none"> • Remount pump in cooler area • Clean filter before pump • Check for clogged fuel line, kink or pinches in line • Mount pump with outlet above horizontal • Clean vent hole

Fuel Pumps and Accessories Kits

Cube

Facet®/Purolator® Cube Solid State Electronic Fuel Pumps

The finest solid state technology available for OE implementation. The Cube solid state fuel pump is installed in thousands of applications and millions of pumps sold worldwide. These fuel pumps provides up to 15psi (1.03 bar), 50gph (189 liter/hour) and 96 inches of average vertical lift. The wide range of pressure and flow rates will ensure there is a Facet fuel pump for your application.

Features

- 12 to 86 inches dry lift... specifications vary by model
- 7 to 40 gal/hr...specifications vary by model
- 1 to 15 psi...specifications vary by model
- Transient protection
- State of the art electronics
- Sealed electronics
- ELV compliant
- Ground positive or negative
- Available in 12 or 24 volt model
- UL certified
- Internal check valve...specifications vary by model
- Reverse polarity protection
- 1.4 amp average
- Corrosion resistant over 100 hours of salt spray
- Easy 2 bolt mounting
- Meets Coast Guard Ignition Protection Test Requirements 33CFR183.410 and Fire and Thermo Shock Test Requirements 33CFF183.590
- Self-regulating pressure
- Internal anti-siphon valve (positive shut off)... specifications vary by model
- Operating temperature range -40° F to +180° F
- Compatible with gasoline, diesel, biodiesel, E85, blended alcohol and fuel additives.
- Available with stainless steel internal components.
- REACH compliant
- RoHs compliant

Posi-Flo®

Facet®/Purolator® Solid State Electronic Fuel Pumps

This outstanding, lightweight universal fuel pump can be used in all carburetor equipped vehicles and also as a diesel lift pump. If “out-of-fuel” conditions occur no extended cranking is necessary to re-start the engine. In many applications, the advanced technology engineered into the Facet®/Purolator® Posi-Flo® fuel pump allows for a convenient interchange with the Cube fuel pump.

Features

- 12 to 60 inches dry lift... specifications vary by model
- 23 to 40 gal/hr...specifications vary by model
- 1.5 to 10psi ...specifications vary by model
- Internal 3.5 amp fuse
- State of the art electronics
- Sealed electronics
- Composite case housing
- Self priming and self regulating
- Corrosion resistant
- Reverse polarity protection
- Quiet running...65DB
- 1.6 amp average
- ELV compliant
- Light weight: 18 ounces at 3 inches
- Performance rated for 6000 hours
- Operating temperature range -40° F to +180° F
- Compatible with gasoline, diesel, biodiesel, E85, blended alcohol and fuel additives
- Available in 12 volt
- Internal check valve...specifications vary by model
- Transient protection
- Ground Negative
- REACH compliant
- RoHs compliant

MOTOR COMPONENTS

Gold-Flo®

Facet®/Purolator® High Performance Gold-Flo® Solid State Electronic Fuel Pumps

An industry standard for over 68 years, these lightweight compact pumps can be found in almost every conceivable application. With out-put ranges up to 170.3 liters/hour, .68 bar, these gasoline or diesel fuel pumps provide high-performance output for everything from racing cars to heavy duty agricultural and construction machinery. Available in 12 or 24 volt models.

Features

- 12 to 24 inches dry lift... specifications vary by model
- 20 to 45 gal/hr... specifications vary by model
- 1.0 to 8.0 psi... specifications vary by model
- Available in 12 or 24 volt model
- Transient protection... 24 volt only
- State of the art electronics
- Sealed electronics
- VCA certified
- Mil-Std-62678 tested
- Complies to Mil-Std 461D... specifications vary by model
- Replaceable 74 micron filter
- 1.6 amp average
- Self priming and self regulating pressure
- Lightweight ... 32 ounces at 5 inches in length
- ELV compliant
- Easy 2 bolt mounting
- Ground negative
- Corrosion resistant over 100 hours of salt spray
- Built in magnet to collect metal particles for additional filtration
- Meets Coast Guard Ignition Protection Test Requirements 33CFR183.410 and Thermo Shock Test Requirements 33CFF183.590
- Operating temperature range -40° F to +180° F
- Compatible with gasoline, diesel, biodiesel, E85, blended alcohol and fuel additives.
- REACH compliant
- RoHs compliant

INTRODUCING

DURA-LIFT II[®]

Solid State Electronic Fuel Pump

*Completely replaces the Legacy Dura-Lift
with a new compact design.*

 **Facet[®]**

 **Purolator[®]**

Since 1950

WE MOVE FUEL®

Applications: The DURA-LIFT II® is designed to replace the current DURA-LIFT® in all applications such as refrigeration truck and trailer units, all off road equipment such as agricultural, industrial, compact equipment, compressors, generator sets, welders and much more. This fuel pump is rated for gasoline, diesel, biodiesel (B100), renewable diesel (HVO), blended alcohol and fuel additives.

Solid-State Reliability: Designed with the latest state-of-the-art electronic technology to support today's sophisticated equipment. The integrated power outlet allows easy hookup to any electrical system making this the most universal connection in the market.

Integral fuel filter: The DURA-LIFT II® comes with an 80 micron stainless steel fuel filter that can be cleaned or replaced as needed. It also has a clear filter bowl for easy inspection of the fuel and filter.

Easy to install - Easy to service: The DURA-LIFT II® is specifically designed to replace the current DURA-LIFT® in all application as a one for one interchange however, it has the same mounting dimensions as the Cube®, POSI-FLO®, and GOLD-FLO® style pumps and can also replace any of these pumps in the same location providing there is sufficient clearances.

Specification	Dura-Lift (legacy)	Dura-Lift II
Nominal Supply Voltage	12 VDC	14 VDC
Operating Voltage Range	8-16 VDC	8-16 VDC
Start Voltage @ 70° F	8 VDC	8 VDC
Start Voltage @ -40° F	9 VDC	9 VDC
Reverse Polarity Protection	-24 VDC	-101 VDC
Circuit Timing Control	555 timer	Microcontroller
Electronics Potting Material	Urethane Foam	Epoxy
Maximum Pressure	12-15 psi	14-18 psi
Fuel Delivery @ Free Flow, Diesel	35 gph	35 gph
Fuel Delivery @ 6 PSI	14.5 gph	16 gph
Lift @ 12 VDC	10'	10'
Maximum Ambient Operating Temperature	180° F	200° F
Minimum Ambient Operating Temperature	-40° F	-40° F
Water Intrusion Resistance (IP rating)	Not specified	IP 69K
Corrosion Resistance	96 hour salt spray per ASTM B117	96 hour salt spray per ASTM B117
Design Life Run Time	10,000 hours	10,000 hours
Dry Run Maximum	4 hours	4 hours
Fuel Compatibility	Gasoline, Ethanol, Diesel, Biodiesel (B100), Renewable Diesel (HVO)	Gasoline, Ethanol, Diesel, Biodiesel (B100), Renewable Diesel (HVO)
Height	7.1"	6.6"
Weight	2.4 lbs.	1.4 lbs.

Dura-Lift®

Facet® Dura-Lift® Solid State Electronic Fuel Pumps

A tough, hard working fuel pump for diesel transfer applications for truck refrigeration units, marine generator sets, diesel filtration systems, industrial and other diesel or gasoline lift applications. The Facet® DURA-LIFT® fuel pump provides up to 15psi (1.03bar), 50gph (189 liter/hours) and 120 inches of average vertical lift. In thousands of proven off road OE applications, DURA-LIFT® fuel pumps have set the standards worldwide. Available in 12 or 24 volt.

Features

- Self-priming to 120 inches dry lift
- 33 gal/hr
- 9 to 15 psi...specifications vary by model
- 4 hour dry run
- Available in 12 or 24 volt model
- State of the art electronics
- Sealed electronics
- Self-regulating pressure
- VCA approved EC95/54
- 80 micron stainless steel filter
- Transient protection
- Reverse polarity protection
- Available with internal stainless steel components
- Light-Weight: 3 lbs at 7 1/4 inches
- Corrosion resistant over 100 hours salt spray
- Easy 2 bolt mounting
- Transparent fuel filter bowl allows filter monitoring
- Low power requirements 1.4 amp on average
- Internal check valve
- ELV compliant
- Ground positive or negative
- Compatible with gasoline, diesel, biodiesel, E85, blended alcohol and fuel additives
- Operating temperature range -40° F to +180° F
- REACH compliant
- RoHs compliant

Custom Fuel Pump Specification Form

If our line of fuel pumps does not meet your current application requirements, please consult our design engineering staff for additional information on how we can work with you to develop the specific type of fuel pump you need.

MOTOR COMPONENTS

COMPANY INFORMATION:

Name: _____

Address: _____

Phone Number: _____

E-Mail: _____

Fax: _____

CUSTOMER DRAWING PROVIDED:

Yes

No

PROTOTYPE(S):

Quantity: _____

Timing: _____

ANNUAL VOLUME REQUIRED:

1st Year: _____

2nd Year: _____

3rd Year: _____

4th Year: _____

Life of program: _____

APPLICATION:

Engine: _____

Make: _____

Size: _____

Type of fluid to be pumped: _____

DELIVERY REQUIREMENTS:

GPH: _____

Pressure: _____

FILTER REQUIREMENTS: (Cylindrical Solid State pump models have integral 74 micron filters... Solid State models need to have an inline 74 micron filter installed ahead of the pump)

FILTER SIZE TO BE USED:

MOUNTING INFORMATION/POSITION OF PUMP RELATIVE TO FUEL SUPPLY

Pump installation height relative to minimum fuel level:
Pump mounted: (We recommend inlet mounted down/lower than outlet)

Above: _____

Below: _____

Vertical: _____

Horizontal: _____

Mounting: _____

TEMPERATURE:

Environment of fuel and pump: _____

VOLTAGE REQUIRED:

12V

24V

Minimum start voltage: _____

POLARITY:

Negative

Positive

SUCTION HEIGHT REQUIRED:

SHUT OFF PRESSURE REQUIRED:

IS CHECK VALVE REQUIRED?

(Keep flow of fuel from returning to take when pump is off)

Yes

No

SIZE FITTING REQUIRED: (1/8-17 NPTF is standard)

TYPE CONNECTOR REQUIRED: (Standard is 6" nominal with 1/4" ring terminal on negative lead...positive lead is stripped 1/4")

LABEL REQUIREMENTS:

Standard

UL RECOGNIZED

Remarks:

Since

1951

ISO 9001:2015
ISO 14001:2015
BUREAU VERITAS
Certification
